

Medi-Cal Rx Training Information

Participating Medi-Cal Rx pharmacy providers and prescribers need to register for the secure provider portal to gain access to the following functionalities:

- **Beneficiary Eligibility Lookup**
- **Web and Batch Claims Submission**
- **Prior Authorization Submission and Inquiry**
- **Learning Management System**
- **Secure Message Center and Chat**

[Training](#) for the secured Medi-Cal Rx portal is available via a series of Computer Based Trainings (CBTs) and Job Aids with step-by-step instructions for the following:

- **UAC (User Administration Console)** – Registration tool that controls and manages users' access to the Medi-Cal Rx Web Portal and associated applications.
- **SabaSM LMS (Learning Management System)** – Your one-stop shop for Education & Outreach information, including the Education & Outreach events calendar, registration to attend an event or take an online course, and evaluations of training effectiveness.
- **Web Portal** – A launching point for web-based applications, resource documentation and links, and access to the enterprise document management system.
- **Web and Batch Claims Submission** – Web-based application developed to provide authorized users with the ability to search for adjudicated claims or select a template that will be used to submit a claim.
- **Prior Authorization (PA) System** – Accessed through the secure Provider Portal, the PA system allows users to submit, inquire, cancel, or add additional information to existing PAs.
